

Southwest Alaska Energy Network – Fishing Vessel Audit Registration

Small for-profit businesses that own commercial fishing vessels in the Aleutians, Bristol Bay, and Kodiak regions are eligible for this program. To register, send this form to energy@swamc.org.

PART I – FISHING VESSEL INFORMATION		
Vessel owner (Name & Business)	Fisheries you participate in (e.g. seine, crab, trawl)	
Pitch and diameter of the propeller	Dimensions of the vessel	
	Length (ft)	
	Beam (ft)	
Engine characteristics of the vessel		
List each engine on board including propulsion and auxiliary engines.	List for each engine on board	
1)	Engine power rating (hp)	
	Engine make and model	
	Engine year	
When was the hull last cleaned?	Is there a fish hold refrigeration system?	
How many hours per year are put on the propulsion engine(s)?	If there is a refrigeration system, what is its tonnage?	
What other major equipment is on board? (Cranes, heaters, big motors)	At what temperature is the fish hold maintained?	
	What powers the compressor (Hydraulics? Electricity?)	

PART II - CONTACT INFORMATION		
Primary Name	Primary Email	Primary Phone

PART III – REASONS FOR PARTICIPATION

Is there any system in particular you think an energy audit should focus on?

--

PART IV – FUEL CONSUMPTION

Minimum of 1 year and ideally 3 years of fuel consumption (gallons) data is needed for audit analysis.

I will email three years or _____ of monthly fuel usage to energy@swamc.org.
